

We hold the keys to your company's future.

“If we are going to lead in a global economy, we cannot wait until students reach kindergarten to begin preparing them for economic success.”

— Virginia Governor
Terry McAuliffe

Educational Achievement Begins Earlier than You Think.

Today's toddlers are the problem-solvers, critical thinkers and team players who will be the backbone of your company in the future. What happens during the first five years of their lives will determine their resilience, agility and ability to adapt to change – skills essential to a competitive workforce.

Every dollar invested today in quality early care and education delivers an average ROI of \$5-8 through higher graduation rates, fewer dollars spent on remediation and greater earning potential.

What happens to Fairfax County's youngest children today will impact their future, the continued strength of our economy and the quality of life in our region. Every child deserves access to quality early childhood education.

Our success is your success.

“The primary obstacle to change is getting business leaders and others to understand that early education is an issue worthy of their attention and consideration.”

-Michael N. Harreld,
Regional President, PNC Bank

Quality Early Childhood Education is Everyone's Business.

Fairfax Futures is a nonprofit organization committed to quality early care and education for our county's youngest children. We collaborate with partners who share our commitment to children's school readiness. Our goals are:

- To invest in the professional development of early childhood caregivers and educators.
- To increase awareness and build support for quality early childhood education and school readiness within our region's business community.

Here's how you can make a difference:

- Make a financial contribution to help ignite a child's passion for learning and exploration through high quality early childhood education.
- Contribute in-kind goods or services to help support our work.
- Become a business champion to advocate on behalf of school readiness for every child in Fairfax County.
